Ocean powerpoint presentation

The ocean has 5 different and distinct layers that each have their own unique characteristics. The layers range from the surface layer where most ocean activities occur, to the deep dark depths of the water that have yet to be fully explored.

The 5 Layers of the Ocean - WorldAtlas.com

Learn about oceans zones and layers of the sea with this hands-on animal habitat science project!. Every summer, we seem to gravitate toward ocean science projects and learning about the various ocean layers and animals.. My kids have always been fascinated by ocean animals -- probably because we hardly get to visit any large body of water since we live smack dab in the middle of the country :)

Ocean Zones for Kids: Marine Life & Sea Layers ...

The ocean's the ocean, right? It's just one homogeneous mass of water doing its stuff underneath the surface. That's pretty much what we thought too, until we looked at the subject in more depth and discovered there's a whole new world of layers of the ocean to be discovered "down under".
